

Maintenance

How to maintain the laser and who should be doing it

-  [General cleaning](#)
-  [Specialist cleaning](#)
-  [Alignment](#)
-  [Replacing parts](#)

General cleaning

After each use

- Remove all debris from the laser bed
- Clean the blades and laser bed using the wipes provided (usually kept behind the laser machine)
- Wipe down the camera pod
- Tidy the area around the laser machine
- Ensure the focus block is returned to the yellow box under the laser

Specialist cleaning

**This should only be undertaken by an authorised person:
currently, Keith, Divya or Neil.**
